STRIKES SOUTH DAKOTA TOWN

Tornado Causes Immense Damage at Watertown.

SCORE OF PERSONS INJURED

Storm Wrecks Fifty Homes and Leaves Trail of Wreckage Through a Thickly Populated Residential Section of the City—Severe Storm Also Strikes the Twin Cities.

Watertown, S. D., June 24.—A score of persons were injured, two probably fatally, and about fifty homes were wrecked, either totally or partially, by a tornado which struck Watertown.

The storm left a trail of wreckage through a thickly populated residential section of the city, many houses being wholly wrecked, while others were unroofed and moved from foundations.

The storm swept upon the city almost without warning. A terrific gust of wind from the north was followed almost instantly by a driving rain.

Reports were current throughout the city that nine were dead and forty injured, but a canvass of the situation by the police and a volunteer force of citizens caused this to be denied.

The path of the tornado was about four blocks wide and eighteen blocks long, mainly through the residence portion.

Many beautiful homes were twisted about on their foundations and collapsed.

Trees Uprooted and Broken.

Roofs were carried off by the first gust and were swept into the street. Many trees were uprooted and broken.

All communication, either telephone or telegraph, was cut off immediately. Traffic was halted within the city in an instant.

Every physician in Watertown responded to calls after the force of the storm had blown over, giving aid to the injured. Neighboring cities were appealed to for aid.

Reports from the vicinity of Watertown say great property loss was caused in the rural districts and it is believed there has been loss of life. Crops in some localities were leveled and ruined.

The storm seemed to have moved in a circle and widened as it passed eastward, spending its fury here. It is said to have started in southwestern North Dakota, passed through southeastern Minnesota and into Western Wisconsin.

Heavy property damage was reported in that portion of Minnesota swept by the tornado, but no reports of loss of life had reached here.

The storm seemed to have subsided by the time it reached Wisconsin and damage in that state is said to have been light.

WIND STORM AT ST. PAUL

Several Persons Injured and Much Damage to Property.

St. Paul, June 24.—Three persons are known to have been hurt, hundreds narrowly escaped injury and general devastation resulted to trees, telephone and telegraph wires and to movable property when a terrific wind storm struck St. Paul.

The most serious damage reported was at the newsboys' carnival. Tents were blown down, more than 150 feet of the canvas enclosure was leveled, decorated fronts of the show tents were ripped from their fastenings and carried bodily away and the portable motordrome was wrecked.

Two persons were injured at the carnival grounds and hundreds of women, men and children narrowly escaped serious hurts.

The sudden gale swept into the city almost unheralded, except for sweltering heat, and before it exhausted itself the wind attained a velocity estimated at sixty miles an hour.

FIGHT ENDS IN TWO DEATHS

Alabama Sheriff Victim When Negroes Try to Aid Escaped Convict.

Warrior, Ala., June 24.—L. F. Clayton, a deputy sheriff, was wounded fatally and Sam Bains, an escaped convict, was killed near here in a battle between officers and negroes who attempted to help Bains get away.

GERMAN VESSELS COLLIDE

Accident Occurs During the Regatta at Cuxhaven.

Hamburg, June 24.—The North German Lloyd steamer Koenigin Luise and the German passenger steamer Cobra were in collision. Both were damaged.

The stem of the Koenigin Luise was stove in and her forepeak was leaking.

The Cobra, which is a small steamer of 412 tons, belonging to the Hamburg-American line, was damaged seriously amidships.

The collision between the Koenigin Luise and the Cobra occurred during the regatta at Cuxhaven.

Both vessels had on board a large number of persons who had gone out to watch the regatta and a catastrophe was narrowly averted.

BUTTE SCENE OF FIERCE BATTLE

Deputy Sheriffs and Miners Exchange Shots.

TWO KNOWN TO BE KILLED

Violence Breaks Out at Meeting Called to Outline Plans for Settling Differences Between the Two Factions of the Union—President Moyer and Other National Officers Make Their Escape.

Butte, Mont., June 24.—Violence broke out anew in the struggle between factions of the Butte miners of the union and three men were shot, two of them being killed, by the fusillade fired by deputy sheriffs in clearing Union hall.

Charles H. Moyer, president of the Western Federation of Miners, and other officers of the union fled through the rear door when the shooting began.

They are said to have left the city for fear of attacks by the seceders from the miners' union, who several days ago revolted against special assessments for the Michigan copper mine strike and the use of the card system.

Many armed deputies were at the hall to preserve order at a meeting called to outline plans for settling the differences between the factions of the local union.

Many of the seceders, who have planned to organize a new union under the auspices of the Industrial Workers of the World, were around the miners' headquarters.

The insurgents started to storm, according to Sheriff Driscoll's deputies stationed there, and several shots were fired in the air to drive the besiegers back. The impetus of the rush was so great that the crowd came on in spite of the warning shots.

Onlookers Shot and Killed.

More shots were fired and Ernest Noy, traveling inspector for the Montana demurrage bureau, fell dead. He was only an onlooker.

J. H. Brune, fifty-two years old, who was going upstairs to attend the meeting in Miners' hall, was shot through the head as the deputies, desperate at the continued onset of the men, fired at every one in sight. Brune cannot recover, it is said.

The third man shot in the first onslaught was Charles Karmner of Los Angeles, a bystander. A bullet grazed his abdomen, but he was not seriously hurt.

As the three men fell the attackers became frightened and fell back. The deputies then reloaded their weapons and prepared for any renewed assault on the building.

At the first volley President Moyer and all the other officers of the federation, who had taken places on the rostrum, dashed out of the rear door. An automobile was waiting for them at the back door and they hurriedly drove away. It is said.

Sheriff Driscoll rushed more deputies to the hall and soon 100 men with sawed off shotguns were on guard. They attempted to keep everybody from the building as it was reported that the structure was about to be dynamited.

The report was well founded, for shortly after the place was cleared explosives were set off under the union headquarters. The blast could be heard for blocks.

It is supposed by officers that some of the seceders from the union planned to blow up Union hall and kill Moyer and the other officers of the Western Federation of Miners.

OLD SOLDIERS ARE ELIGIBLE

Federal and Confederate Veterans Can Take Postoffice Tests.

Washington, June 24.—The senate passed a bill to allow federal and Confederate veterans of the Civil war to take the fourth class postoffice examination regardless of their age.

AGED SCOTTISH PEER COMMITS SUICIDE.

Dundee, Scotland, June 24.—Horace Courtenay Gammell, Forbes, nineteenth Baron Forbes, representative peer for Scotland, committed suicide in a hotel here, where he had been living for three months. Baron Forbes was eighty-five years old and succeeded to the title in 1865. His heir is the Hon. Atholl Monson Forbes, a brother.

TWO RUSSIAN FLIERS DIE.

St. Petersburg, June 24.—A Russian army aviator, Lieutenant Loras-bosky, and a passenger, were killed by the fall of a biplane.

JOHN WANAMAKER.
He Does Not Believe in Recognizing Trades Unions.

UNION LEADERSHIP BETTER

John Wanamaker Says the Class is Improving.

Philadelphia, June 24.—"It's an insane thing now to recognize organizations of labor," John Wanamaker said in giving testimony before the United States commission on industrial relations, in reply to a question whether employers should recognize labor unions. On the general question of unionism Mr. Wanamaker said he believed labor "has suffered rightfully because of poor leaders," but added a better class of leadership is coming in.

BADGER STALWARTS NAME STATE TICKET

Republican Factions Select Milwaukee Man for Governor.

Madison, Wis., June 24.—The conservative faction of the Republican party of Wisconsin in convention nominated Levi H. Bancroft of Richmond Center for the United States senate, named a full state ticket and heard speeches criticising the state administration.

The following ticket was named: Governor, Emanuel L. Philipp, Milwaukee; lieutenant governor, William M. Bray, Oshkosh; secretary of state, Neils Holman, Deerfield; treasurer, Marshall Cousins, Eau Claire; attorney general, A. L. Kreutzer, Wausau.

James G. Monahan of Darlington, temporary chairman, in his keynote speech, denounced the state administration, charging extravagance.

The resolutions committee's report favored "a reasonable protective tariff, scientifically adjusted; federal legislation to control railway capitalization; retrenchment in state expenses; elimination of useless commissions; legislative investigation of the state university; a single board to have charge of all state educational affairs; revision of the highway law; repeal of the state's reforestation plan; amendment of the water power law to encourage rapid development of power and defeat of all pending constitutional measures, including the initiative, referendum and recall."

GOVERNMENT STOPS SALE

Claims Electric Belt Company is Fraudulent Concern.

New York, June 24.—Upon the order of Postmaster General Burleson the offices here of the Sanden Electric company, which carried on an extensive business in the sale of electric belts as a cure for various ills, were entered by postoffice inspectors and the general manager, Giden H. McIvor, was arrested on a charge of using the mails to defraud.

Warrants for the arrest of two other persons are in the hands of inspectors.

It is charged that McIvor and his associates sold the electric belts by means of magazine and newspaper advertisements which it is alleged falsely represented that the belts would cure numerous diseases.

During the twenty years of its existence, it was said, the concern has made profits of more than \$1,000,000.

GIBE DEMOCRATS ON REPEAL VOTE

"Platform Pledges" Feature of Coming Campaign.

CELEBRATION OF FLAG DAY.

Postmaster General Burleson Made Big Display on Inside of Building. Most Vehement Supporter of Civil Service Invariably Party That Has Just Gone Out of Power.

By ARTHUR W. DUNN.

Washington, June 24.—[Special.]—It looks as if the Democrats were now being taunted with broken pledges on account of the repeal of the free tolls provision in the Panama canal act. Legislation of minor importance relating to extra employees in the government service, relieving them from civil service restrictions, has several times caused long discussions in the senate about pledges in the platform. Only a short time ago Senator Norris of Nebraska called attention to the pledge in the Democratic platform that appointments in the service should be a reward of promotion rather than service rendered to a political party.

"I will ask the senator if he does not think it just a little bit unkind," said Senator Chamberlain of Oregon, "after the Democrats have been assisted by him in the violation of their platform that he should now criticize them for their doing so." Then Senator Vandaman called attention to the fact that Senator Norris had repudiated all the platforms of 1912 in voting for the repeal.

General Platform Suggestions.

Senator Kenyon of Iowa wants to know whether the plank relating to civil service was heard by the convention when it was read. Senator Norris explained that it had been approved by the president. "Before we accept it," said Senator Clapp, "we must have something more to identify it than the mere fact that the president approved it. The senator had better withdraw his witness, as the president approved the free tolls plank." Senator Jones of Washington wanted to know if it was not a fact that when the platform was adopted, as had been asserted by several Democrats on the floor of the senate, that "all members of the convention were demoralized, mentally and physically." Then Senator Ashurst, a Democrat from Arizona, broke in with the statement that it must be known now that all men "who think into things instead of around things that a platform is made to get in on and not to stand on."

Will Appear in the Campaign.

From this sarcastic discussion in the senate it is apparent that the platform pledges of the Democratic party will be an interesting feature of the campaign in every congressional district this fall. People like to know what prominent men are saying about this platform matter because it is going to interest every man who is seeking election to congress this fall.

The Patriotic P. O. D.

Several Democrats and many private persons made an effort to celebrate flag day in a fitting manner, but it remained for Postmaster General Burleson to make the postoffice department a real flag day celebration. Unfortunately the flags were displayed on the inside of the great court of the post office department and were not seen by everybody on the streets, but only by the employees and visitors to the department.

A Real Senatorial Courtesy.

I have pointed out several times that senatorial courtesy does not extend beyond the lines where the desires of one senator interfere with another. Consequently senatorial courtesy does extend to the matter of appointment of postmasters in the home towns of senators. As far back as the oldest inhabitant can recollect it has been the custom of the senate not to confirm a man for postmaster in the home town of a senator if that senator raises an objection. Quite a number of Democrats are waiting anxiously for their commissions as postmasters, but are held up because their selection is not approved or is obnoxious to the senator who resides in the town where they are appointed.

"Parliamentary Doctors."

A ruling was made by President Pro Tempore Clarke of Arkansas the other day, and Senator Kenyon of Iowa did not like it. He believed that his contention was right, and at the time he called attention to it and remarked: "There were none of the parliamentary doctors here at the time this question was raised. I know very little about parliamentary law, so the question was not discussed." These "parliamentary doctors" to which Kenyon referred are generally anxious to get into any discussion relating to the rules and precedents of the senate.

An Opinion From Colorado.

There was a discussion in regard to civil service in the senate. Senator Thomas of Colorado asserted that all parties in their platforms expressed their approval of civil service, but all parties in their practice when in power disregard it as effectually as possible. This opinion from Colorado is not far wrong. The most vehement supporter of the civil service is the party that has just gone out of power.

Poetry.

A correspondent wants to know if poetry is a profession. No; it is a calamity.—Washington Herald.

COLONEL GORGAS.
Honored by American Medical Association.

GOLD MEDAL FOR GORGAS

American Medical Association Honors Surgeon General.

Atlantic City, N. J., June 24.—Installation of Dr. Victor C. Vaughan of Ann Arbor, Mich., as president and the presentation of a gold medal to Surgeon General William C. Gorgas in recognition of his services in the sanitation work of the Panama canal zone held interest in the initial session of the sixty-fifth annual convention of the American Medical Association.

Advocating the establishment of a national leprosy hospital Dr. W. C. Rucker of Washington, D. C., asserted that leprosy gradually is increasing in the United States.

SALE OF WARSHIPS APPROVED BY HOUSE

Transfer of Idaho and Mississippi to Greece Carried.

Washington, June 24.—The administration proposal to sell the battleships Idaho and Mississippi to Greece, already approved by the senate, was passed by the house by a vote of 174 to 87. One dreadnought will be built to replace the proceeds.

The action of the house allows the house in conference to agree to the senate amendment, with alterations, providing specific appropriations for the new dreadnought, which will cost \$7,800,000, exclusive of armor and armament.

The proposal provides immediate funds of \$2,635,000 to begin work on the vessel as soon as the sale is consummated.

The proposal was agreed to in spite of the charge by Republicans on the floor that the sale means "entangling European alliances," and will involve the United States in the Balkan troubles.

Representative Padgett declared that the administration believes the sale of the two vessels will have a tendency to "preserve the peace" between the nations involved and asserted that he knew of no protest against the sale being made by either country.

STEAMER GOTHLAND HITS ROCKS IN FOG

Passengers Rescued, but Ship May Be Total Loss.

Scilly, Eng., June 24.—The Belgian steamer Gothland, from Montreal for Rotterdam, laden with grain, struck Grim rocks, near Bishop lighthouse, off Scilly islands, in a fog. Wireless messages for assistance speedily brought to the aid of the Gothland the steamer Lynnesse from Penzance, two lifeboats from St. Mary's and the steamers Ascanius and Montezuma from Lizard Head.

The Gothland was damaged seriously and all attempts to launch boats proved hazardous, owing to the heavy sea. The first boat fell from the davits into the sea and was smashed. The occupants were thrown into the water, but a St. Mary's lifeboat rescued all of them.

All the passengers, numbering 130 emigrants and 86 of the crew, were transferred safely to the Lynnesse and landed at Hughtown, St. Mary's Island, the capital of the group. Several of them were injured, one man having an arm broken and another suffering from serious scalds.

The Gothland has twenty-seven feet of water in No. 1 and No. 2 holds and it is feared she will prove a total wreck. The captain, officers and some of the crew remain on board and a St. Mary's lifeboat is standing by.

The Gothland belongs to the Red Star line, but is under charter to the Canadian line. She left Montreal June 12.

VILLA MOVING ON ZACATECAS

DROWNED IN LAKE HARRIET

Young Man Unable to Save Girl When Canoe Upsets.

Minneapolis, June 24.—Miss Loretta Grams, Jordan, Minn., is known to have been drowned in Lake Harriet during the severe storm. Her escort, A. C. Friedlund, nearly lost his life in trying to save Miss Grams and later he was rescued just as he became unconscious.

Miss Grams was near the middle of the lake, in a canoe with Friedlund, when the storm broke. The boat was overturned and although Friedlund tried to save his companion she was swept from his grasp and he escaped drowning by clinging to the canoe.

Other deaths may have occurred among canoeists on the lake. Many empty canoes were blown ashore.

Telephone lines were demoralized and extensive damage was done to homes in various parts of the city.

MANY DELEGATES PRESENT

World's Sunday School Convention Opens at Chicago.

Chicago, June 24.—Five hundred delegates and alternates and several thousand visitors from all parts of the world are in Chicago for the opening of the fourteenth International Triennial Sunday School convention, to be in session for one week.

"Jesus Shall Reign" is the convention keynote, printed on cards and flashed in electric signs. The convention sermon was preached in Medinah temple by Rev. C. P. Anderson, bishop of the Chicago diocese of the Episcopal church.

Meetings will be held daily in twelve of the largest city churches. "Prohibition," "Relation of the Sunday School to the Public School" and "The Sunday School's Responsibility to Foreign Speaking Peoples" are three of the topics to be discussed. Among the speakers will be Richmond P. Hobson and Booker T. Washington.

BIER AT WEDDING ALTAR

Nordica's Funeral in London Church Where She Was Married.

London, June 24.—The funeral service of the Anglican church was held for Madame Lillian Nordica in the King's Weigh House church, Mayfair, where she was married just five years ago to George W. Young of New York.

A large congregation was present, including many singers.

FIFTY CHILDREN HURT AT AMUSEMENT PARK.

Atlanta, Ga., June 24.—Fifty children were injured here when a pavilion at a local amusement park collapsed at a picnic party. Two hundred children were in the pavilion at the time. None of the injured is hurt fatally.

Heavy Rains May Handicap the Rebel Campaign.

MANY BRIDGES WASHED OUT

Whereabouts of Insurgent Army is Unknown, but It is Believed That Villa Has Reached Frcsnillo, Thirty-five Miles North of Zacatecas, Where General Natera is Stationed.

El Paso, Tex., June 24.—General Villa has not burned his bridges behind him in the Zacatecas campaign, but rains have washed them away, it was announced by railroad officials. It was said that it would take a fortnight to repair the damage between Chihuahua City and Torreon. In the meantime Villa's forces were reported preparing to attack at once the Central Mexican city. This also may interfere with Villa's plans for obtaining supplies for his army during the siege.

Villa agents said that they did not know Villa's whereabouts, but supposed he already had reached Frcsnillo, thirty-five miles north of Zacatecas, where General Natera has maintained headquarters during his unsuccessful investment of the city.

From the federal side came a report of Constitutionalists reverses above Zacatecas. Arturo Elias, the Huerta consul here, gave out a telegram dated Zacatecas, June 22, from General Barron, the garrison commander, which said:

"News published by the press in regard to the defeat of our forces is unfounded. On the contrary, we have dealt the bandits a heavy blow. On this date they retreated north with great losses of men and munitions."

HOPEFUL AT WASHINGTON

Belief Prevails Rebels May Yet Join Conference.

Washington, June 24.—Mexican Constitutionalists in Washington still wait the arrival of other representatives en route here with instructions from General Carranza before taking any formal action on the invitation from the American peace commissioners at Niagara Falls to meet with them and the Huerta delegates to discuss plans for the pacification of their country.

In administration circles expectations were general that representatives of the Constitutionalists eventually would be prevailed upon to confer with the American and Huerta delegates at Niagara Falls.

Reports current in Washington that the United States was preparing to negotiate with Villa in

**WILSON TO HEAD
MIGHTY ARMADA**
Program For Big Naval Show
at Panama Canal.
WARSHIPS OF MANY NATIONS

President of the United States Will Stand on Bridge of the Historic Oregon as Vessels Pass From Ocean to Ocean—Dreadnought New York to Convey Him From Hampton Roads.
The fleet of warships, representing the nations of the world, which will pass through the Panama canal at its formal opening next March will be led by the famous old battleship Oregon, with President Wilson on the bridge. When the fleet has passed through the canal it will steam northward to the Golden Gate and will attend the Panama-Pacific exposition at San Francisco.
The president has determined now to do full honor to the exposition by making his advent upon the scene at the head of an armada the like of which the world has never seen. Also he will redeem his long standing promise to Colonel George W. Goethals by not only visiting but formally opening the great Panama canal. He will make his passage through that waterway on the battleship Oregon, standing shoulder to shoulder with Rear Admiral Charles E. Clark, retired, who captained the ironclad on her famous Spanish war cruise circumnavigating South America. Also on the Oregon will be most of the members of Wilson's cabinet.
The president, according to the present program, will leave Washington for Hampton Roads, accompanied by his official family, on the yacht Mayflower on March 5, 1915. The international fleet will have been gathering in the Roads since Jan. 1.
Other Nations to Send Ships.
So far nine of the maritime countries have signified their intention to take part in the great naval parade through the canal, and it is certain there will be other participants announced before the end of the year. The countries that already have accepted are the Argentine Republic, Cuba, France, Germany, Great Britain, Italy, Japan, Portugal and Russia.
The entire Atlantic fleet of the American navy will form the nucleus around which the international naval forces will gather. The officers and men of the fleet will be the nation's guests and will make excursions from Hampton Roads to the capital and to nearby eastern cities while arrangements are being made for the long cruise from Chesapeake bay to the Golden Gate.
After the ceremonies at Hampton Roads the president will take up his quarters on the great super-Dreadnought New York, which will be at that time the most formidable vessel in commission in the world. Then the start will be made for Colon, with the New York leading. The ships will form a column many miles in length, for it is estimated that there will be between eighty and a hundred ships in the procession. Most of these will be of the most modern type.

Short Delay at Colon.
Arriving at Colon within a week there will be a delay of a couple of days while arrangements are being made to pass the vessels through the canal. This will be done with all ceremony, the line being headed by the ancient steam launch Louise, the gift of the American government to the government of France. The Oregon is to follow with the presidential party, including Admiral Clark, the cabinet, members of the senate and house of representatives and distinguished guests.
Allowing one hour's time for the passage through the locks of each ship, and a day for its transit through the canal, the whole fleet should be transferred from the Atlantic to the Pacific in the course of about four days.
When the many ships have made the passage and have anchored in Panama bay fresh supplies of coal, oil and provisions will be taken aboard, and the procession will start for the north. It is probable a short stop will be made at San Diego, Cal., to do honor to the Panama-California exposition in progress at that place in connection with the canal celebration.
If all goes well the first vessels of the international fleet should pass through the Golden Gate by April 15, 1915, and the gathering of fighting craft in San Francisco bay, where other warships will have arrived, will be one of the mightiest ever seen.
Just how long the president will remain in San Francisco and his plans for returning to Washington have not been determined.

Sorority Bars All "Flunkers."
No person who has ever failed in a college study can become a member of Gamma Pi Gamma, the honorary society just established at the Kansas State Agricultural college. Not only are "flunkers" excluded, but persons must have positively high scholarship in college work, personality and activity in college organizations in order to be selected for membership. The sorority is confined to girls taking work in home economics, and only juniors and seniors are chosen.

Played With Fire Balls.
For many centuries polo, or chaugan, as it was then called, was a favorite pastime with Asiatic rulers. A contemporary annalist records of Akbar, the greatest of Mogul emperors, that "he plays at chaugan on dark nights, the balls being set on fire. For the sake of adding splendor to the game his majesty has knobs of gold and silver fixed to the chaugan sticks. If one of these breaks any player that gets hold of the pieces may keep them."

HANDLING BAGGAGE.
A System That Simplifies Matters For the Railroad Men.
Like most other mysteries, that of handling the thousands of pieces of luggage that come to a great railroad station has a simple solution. It seems to the layman that there must be confusion when incoming trains dump hundreds of trunks and hand bags into the baggage rooms for distribution to all quarters of the city. System, which has come to play an important part in all business nowadays, has made baggage handling a rather simple matter for the railroads. It is the use of a key number that does the trick.
Travelers have noticed that their check numbers run into six figures, if they pay attention to the figures on their checks at all. It is the third of these units, counting back from the final number, that is the key to the whole system of distribution. The expressman who handles the baggage for its home distribution hands in to the baggage agent his mass of collected checks, all sorted on that basis, and the baggage handlers hustle the stuff out with very little delay.
Suppose he has only a few checks from an incoming local train. They may read 384741, 384201, 384500, 384735, 384812, 384457, 384622, 384256, 384739, 384747, 384056 and 384123. In each case the first three figures are identical—384. The first variation begins with the fourth, or hundreds, unit. By means of this unit he separates his checks—all the 7's in one bunch, all the 5's in another, and so on.
In the baggage room the trunks and bags are distributed as soon as received in ten apartments, each bearing a unit number, from 0 to 9. That number invariably represents the hundreds unit of the claimant's check. The trunk with a 384543 check would go to the same compartment as one numbered 385543 or 383543 or 12543 or 087543. The figure 5 is the key figure, with the result that there is never any confusion or trouble in locating the baggage desired. It would be in the compartment numbered 5.
This simple plan solves the mystery as to the prompt location of a piece of hand baggage when a passenger rolls up to the baggage room door in a taxi to get the piece of luggage he has had checked and has to wait but a moment to obtain it. It is a very simple solution of the trouble that a few years ago annoyed all travelers who had to wait for baggage to be transferred from one terminal to another in their own conveyances.—New York Sun.

Greatest Song Writers.
The immortal quartet of song writers are Goethe, Heine, Burns and Beranger. Of the four Burns is by far the most popular. Goethe was at heart an "Olympian" and in all things a critic; Heine was in his deepest soul a pessimist and cynic; Beranger, while much more human, was a little bit too critical, while Burns, democratic to the core and of immense sympathy, threw himself into the common human life of the world with a whole heart and wrote the songs that will live and be loved while humanity endures.—New York American.

A. E. TAYLOR PASSED AWAY

Prominent Railway Man Died of Bright's Disease at Rutger's Summer Home, Bay Lake

BUILT THE N. E. BRAINERD DAM

Was Later Superintendent of Bridges and Buildings, Atchinson, Topeka & Santa Fe

A. E. Taylor, aged 78, died of Bright's disease at Rutger's summer home on Bay Lake near Brainerd Tuesday afternoon.

He was general roadmaster of the entire Northern Pacific railway in 1875 to 1884, had charge of building the dam in Brainerd, working under C. F. Kindred, now of Philadelphia. He conducted a large grocery store for some years in Brainerd.

He was later superintendent of bridges and buildings of the Atchinson-Topeka & Santa Fe at Chicago, where his son, Charles Taylor, is superintendent of that road's terminals.

A daughter, Mrs. Lena Spencer, lives in St. Louis. The remains will be sent to Michigan for burial.

Mr. Taylor was twice married. The first wife died about ten years ago and there were two children from this union, Charles Taylor and Mrs. Lena Spencer. He later married a Mrs. Smith of Mandan, N. D.

Mr. Taylor spent his winters in Duluth, Superior, St. Paul or Minneapolis. He had spent all his summers in later years at Bay Lake.

He was well known to many Brainerd people and they loved and respected him. To the family the community extends its sincerest sympathy.

LATER—Funeral services were held this Wednesday morning at the Rutger home at Bay Lake, Rev. G. P. Sheridan, of Brainerd, officiating. The remains were placed on the porch. The house was banked with evergreens, ferns and peonies. The large number of people attending sat on the lawn. Among the Brainerd people present were W. A. M. Johnstone, F. S. Parker, R. R. Wise, Rev. G. P. Sheridan, D. E. Whitney, Judge J. T. Sanborn, E. O. Webb, R. J. Hartley, Harry Treiglawny.

The body was taken to Deerwood, this noon sent to Brainerd and then transferred to the St. Paul train, to be sent to Chicago.

Wold-Knebel

A pretty wedding was solemnized Wednesday, June 17th at 10 o'clock at the home of Rev. and Mrs. J. M. Baitinger, in St. Paul, when Miss Cecelia Knebel, one of Minnesota's popular school teachers, became the bride of Mr. Henry Alvin Wold of Red Wing. Rev. Baitinger, who officiated, using the short ring ceremony, had been a school mate of the parents of the bride at Paynesville, Minn., where she taught last.

Ben Knebel, brother of the bride, was Mr. Wold's best man, and Miss Sadie Wold, sister of the groom, bridesmaid, wearing pale blue crepe de chene trimmed with shadow lace and carried an arm bouquet of pink carnations.

The bride wore white satin messaline trimmed with seed pearls. Her long tulle veil hung to the hem of her gown and was caught at the head in cap effect with sprays of foliage and lilies of the valley. She carried a shower bouquet of brides roses and lilies of the valley. The happy pair left immediately for a wedding trip to Red Wing before going to Pequot to spend their honeymoon. The contracting parties are both well and favorably known in their home communities, the groom being a skilled mechanic having grown up at Red Wing and the bride having been a successful teacher in Crow Wing and surrounding counties. Both have hosts of friends to extend congratulations and good wishes.

Cools the stomach, washes out the bowels, drives out impurities, helps the liver; its Hollister's Rocky Mountain Tea. Take it once-a-week, during warm weather and see how happy and contented you'll be. 35c. Tea or Tablets. H. P. Dunn.—Adv.

CANCELLED THEIR GAME

Sank Rapids Due to Play in Brainerd on Sunday, June 28, Claims Date with St. Cloud

In a lame letter written by Frank Keller, manager of the Sank Rapids team, which was to play Brainerd here on Sunday, June 28, Keller said he made a mistake in the date and that Sank Rapids was due to play St. Cloud next Sunday.

He begged Manager D. A. Peterson's pardon, but his letter did not reach Brainerd until today. This puts Brainerd out of a game Sunday all on account of Sank Rapids and its unbusiness-like methods in billing its team in two places at once.

LOERCH NOVELS

Miss Mildred Mille of Brainerd is visiting friends and relatives at Woodrow this week.

J. P. Dullum is putting up a nice little cottage at Woodrow, it is to be 25x60 in size.

Oscar Dullum is employed as fireman at the Wilcox mine at Woodrow. He likes his job fine.

The farmers are getting disappointed with all the rain.

Mrs. F. A. Miller left last Tuesday for Staples to attend the wedding of her brother, Leon Thomas, of Cuyuna. What is the matter with Pat, he wears his cap backwards. Ha, ha, poor Pat.

Oscar Dullum was seen at Woodrow one day last week wearing a fine white cap. He surely looks good in it.

All the drillers went to town last Saturday night.

TOM & JERRIE.

\$600 IN 30 CENT STOVE

Junkman Haggles over Price and Then Loses Valuable Contents which Widow Regains

Although not ordinarily given to displays of emotionalism, there is one junkman in Newark, N. J., who wept bitterly and didn't care who knew it. The cause of his grief was his discovery that an old stove, for which he had paid thirty cents, contained \$600 in gold, and that there was not a chance on earth that he would get the money.

He bought the stove from Mrs. Norma Sullivan, whose husband died some months ago, and who had started to dispose of some of the things in the house she did not need. She sold the stove first. The junkman wanted it for twenty cents. She offered it for forty. They split the difference.

As the junkman carried the stove away there fell out of it a package which contained sixty \$10 gold pieces of the date 1888.

"My husband must have put them there," said Mrs. Sullivan, "and forgot to tell me."

Comforting to Stout People

Foley Cathartic Tablets are a specially good little regulator that keeps your system in perfect working order. No biliousness, no constipation, no distress after eating, no greasy, gassy taste. A stout person who uses them constantly will really feel thinned out and more comfortable as a result of their use. H. P. Dunn.—Adv.

Notice

DISTRICT COURT PROCEEDINGS

A Number of Criminal Cases Continued on Motion of the State

THE STATUS OF ICE HOUSE CASE

Partly Heard by Judge Stanton and Plaintiff Asked to Amend Complaint

Recent district court orders entered are:

D. J. Severance vs. William A. Guith, continued by order of court on account of non-appearance of parties. John Monett vs. Arthur Dougherty et al, dismissed on motion of plaintiff.

Criminal cases continued on motion of the state were those against Joe Perkovich, Gust Maki, Stella Randall, W. T. Larrabee.

The case against John Klow was dismissed on motion of the state.

In cases against Victor Lund, Irving R. Sewell, Edward Lovdahl and Henry Breen, the order entered in each was this: No indictment, case dismissed on motion of county attorney. Defendant discharged and bonds released.

In a case against Edward W. Van Walk and one against Marie L. Van Walk, the cases were continued by order, to be presented to the next grand jury.

Criminal cases No's 728, 729 and 730 were continued by order to be presented to the next grand jury.

It was ordered that the \$100 cash bail deposited in the case of John Klow be paid over to W. F. Wieland, counsel for defendant.

The case of Charlotte E. Neal vs. R. J. Hartley, C. H. Paine et al, was partly heard by the court and upon motion of plaintiff to amend his complaint the matter was taken under advisement by the court. The decision has not yet been rendered. This case concerns the ice house located on West Laurel street.

NOTICE

Notice is hereby given that sealed bids will be received by the Board of School Dist. 32, until June 30th, 1914 for the erection of a school house, complete, 20 by 35 feet, with 12 foot posts including concrete foundation and steps, also woodshed, 12 feet by 16 feet with 10 foot front and 8 foot rear, all material put on the ground by the District. Plans and specifications of school building may be seen at office of Co. Supt. Building must be completed Sept. 1st, 1914 The Board reserves right to reject any and all bids.

ALICE M. WALKER, Clerk.

ARE YOU A MATHEMATICIAN?

Then Solve This Problem and Win a Prize of \$25,000.

The largest single prize offered for a scientific discovery is still going begging. The prize has been open to competition for many years. At first sight the problem for a solution of which the prize is offered looks no more difficult than those with which high school students are familiar, but many of the greatest mathematicians in the world have tried to solve the problem and given it up in despair. It is known as Fermat's problem. Nearly 300 years ago Fermat, one of the greatest mathematicians who ever lived, stated that the equation $x^n + y^n = z^n$ could not be satisfied by whole numbers when n is an odd prime number different from unity. The problem may be stated in another way—viz. that $x^n + y^n = z^n$ cannot be satisfied when n is any integer greater than 2. The one follows as a logical conclusion from the other.

The Academy of Sciences of Göttingen, Germany, offers a prize of 100,000 marks (about \$25,000) for proof of this assertion. This is the prize that is going begging.

Dr. Joseph Bowden, professor of mathematics, Adelphi college, Brooklyn, asked by the Scientific American to state the precise conditions for winning the prize, writes that the Academy of Sciences will not consider any manuscripts sent in, but only proposed solutions printed and offered for sale as monographs, in books on mathematics or in mathematical periodicals. The award will not be made until two years after the publication of the memoir in order that mathematicians may have ample opportunity to test and criticize the solution.

The object of these restrictions is to save the academy from being flooded with undigested manuscripts. It will only consider solutions that have stood the test of some competent editor or publisher in the first place.

Executions in Europe.

Methods of putting criminals to death vary. In Europe the guillotine is the mode of execution most generally employed. Austria, Holland and Portugal are the only other countries besides Great Britain where criminals are hanged. In Oldenburg they are shot, in Brunswick they are beheaded, and in Spain they are garroted.—London Telegraph.

Don't Lose Sleep Coughing at Night

Take Foley's Honey and Tar Compound. It glides down your throat and spreads a healing, soothing coating over the inflamed tickling surface. That's immediate relief. It loosens up the tightness in your chest, stops stuffy wheezy breathing, eases distressing, racking, tearing coughs. Children love it. Refuse any substitutes. Contains no opiates. H. P. Dunn.—Adv.

MEETING OF BOOSTER CLUB

Called by President Anton Mahlum and Others for Friday Evening, June 26th

President Anton Mahlum and others have called a meeting of the Booster club for Friday evening, June 26, at the council chambers. Matters of importance are to be discussed. Boosting the agricultural resources of the county is to be taken up.

"GOOD ROADS DAY" OBSERVED

Day so Designated by Governor A. O. Eberhart Means of Road Improvement in County

VAALE NOR. LUTHERAN CHURCH

Church Members and Pastor, Rev. C. Hougstad, Turn Out—Deerwood Also Busy

"Good Roads Day", June 23 being so designated by Governor A. O. Eberhart, was observed in Crow Wing county by the inauguration of improved methods of building roads, the county having bought a large tractor, scrapers and dump cars.

At Deerwood, District Engineer L. E. Garrison headed a crew of business men, farmers and others and improved roads out of Deerwood. County Commissioner John A. Oberg, of Deerwood, was at the head of another crew.

Good Road's Day was observed in proper manner by a crew of eleven men and two teams on the road south of O. T. Swelland by the Vaale Norwegian Lutheran church in Nokay Lake township.

The pastor, C. Hougstad, spoke a good word for the Better Roads movement at a recent social of the church and the result was a turnout by members and others yesterday and a lusty movement of sod, stumps, and stones took place.

The donation work was rendered by the following: A. M. Peterson, Bert Peterson, C. Hougstad, George Erickson, Oscar Erickson, Albin Bloom and team, August Erickson, Oliver Swelland, Sam Thompson and team, Andrew Anderson, Ole Sunde.

Get Rid of the Torment of Rheumatism

Remember how spry and active you were before you had rheumatism, backache, swollen, aching joints and stiff, painful muscles? Want to feel that way again? You can—just take Foley Kidney Pills. For they quickly clear the blood of the poisons that cause your pain, misery and tormenting rheumatism. H. P. Dunn.—Adv.

It Was Lincoln's Knife.

Lincoln was always ready to join in a laugh at his own expense and used to tell the following story with intense enjoyment: "In the days when I used to be on the circuit I was accosted in the cars by a stranger, who said, 'Excuse me, sir, but I have an article in my possession which belongs to you.' 'How is that?' I asked, considerably astonished. The stranger took a jack knife from his pocket. 'This knife,' said he, 'was placed in my hands some years ago with the injunction that I was to keep it until I found a man uglier than myself. I have carried it from that time to this. Allow me to say, sir, that I think you are fairly entitled to the property.'—'Everyday Life of Abraham Lincoln.'"

"MICHAEL'S"

MUSIC AND DRAMA

At the Grand

Nothing in the way of western drama produced and released by the Universal Film Manufacturing company in months, has so stirred the enthusiasm of the Universal officials, the trade-press and the National Board of Censorship, as "The Tragedy of Whispering Creek." MacQuarrie taking the lead in this strong two reel drama at the Grand tonight and Thursday.

In a small mining community lives an orphan girl who is engaged to a miner. A degenerate Mexican infects the camp and proves a menace to the citizens. The orphan's sweetheart finds him intimidating two young sweethearts and gives him a well-deserved beating. Thus he incurs the Mexican's hatred.

A young stranger coming into camp accidentally shoots himself while cleaning his revolver. The orphan girl takes him into her cabin and dresses his wound. She is called out by the Mexican and attacked, but is saved by the stranger. To secure revenge, the Mexican informs the miners that the orphan is harboring a man in her cabin; this reaches the ears of the orphan's sweetheart. With a strong fist the young miner smashes the lying mouth.

In the meantime, the stranger, unaware that the girl is engaged to the miner, falls in love with her. The miner finds it out and his heart aches—but he acts straight. Upon learning the truth, the stranger departs; he makes his way up the hill, leaving the girl behind with a sore heart, for she loves him in a way. However, as he looks back and down the mountain, the stranger sees the Mexican below him on a cliff about to shoot the miner and the girl as they stand on the door-step. He hurriedly throws his pack onto him, spilling his aim; then he jumps over and down. He kills the Mexican, but his own life is sacrificed.

SHAKE IT OFF

Rid Yourself of Unnecessary Burdens. A Brainerd Citizen Shows

You How Don't bear unnecessary burdens. Burdens of a bad back are heavy. Get rid of them.

Doan's Kidney Pills are for bad kidneys. For lame, weak and aching backs. Local endorsement proves their worth.

Mrs. Charles Erickson, 1103 E. Oak St., Brainerd, Minn., says: "I suffered from weak kidneys for two or three years. I had dull pains through the small of my back that kept me in poor health. I also had headaches and dizzy spells. Being advised to try Doan's Kidney Pills, I got a box at H. P. Dunn's Drug Store and used them regularly. They made me feel much better in every way and I was so pleased that I publicly recommended them. Since then I have taken Doan's Kidney Pills whenever I have had any signs of backache or a kidney weakness, and they have fixed me up all right."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Erickson had. Foster-Milburn Co., Props., Buffalo, N. Y.

Good Advice.

"Young man," said the boss, "come hither and listen." He approached. "When you've made a mistake forget it and go on to the next job. Don't potter around all day adding a lot of finishing touches."—Louisville Courier-Journal.

Bladder irritations, kidney troubles, dull headaches, weariness, pain in back and sides, all show the kidneys need to be toned up, strengthened, their regular action restored. Foley Kidney Pills will do it surely and quickly. They give good health, freedom from pain, a return of appetite and sound sleep. Try them. H. P. Dunn.—Adv.

START OF GREAT WHEAT HARVEST

What Happens When Farmers Call For Hands.

UNSKILLED GET \$2.50 A DAY

A Description, From the Spot, of the Arrival of the Harvesters—What They Are Like, How They Come, How They Are Received and How They Are Put to Work.

"Menless jobs instead of jobless men" in the very immediate future through out the United States are predicted by Secretary of Labor Wilson.

Western farmers want harvest workers. In Kansas the wages range from \$2.50 to \$3 a day for unskilled labor and higher prices for engine drivers and expert workers.

On the southern border of the Kansas wheat belt the army of harvesters has begun its labors. While there has gone out a demand for 82,000 men, to work in the entire wheat belt, the first great call and the most insistent is from Kansas, where 60,000 harvesters are needed, according to the report of the labor bureau. Allowing for duplications, this has been cut to 42,000, with 6,300 extra teams and 2,300 cooks. Just why there should be this need is not understood until one travels over the wheat counties. The Kansas City correspondent of the New York Post in an interesting article explains conditions.

The average county in the wheat section has a small population. The farms are large, the towns small. Take Pawnee county, for instance, out in southwest Kansas. It has a population of 8,500 or 1,700 families. There are 275,000 acres of wheat to cut and thrash. If every available man in the county could be put at the job the work would not be done during the short period during which wheat must be handled. Once ripe, the heads shell freely, and the grain must be garnered.

How Help is Obtained. As the present crop approached its splendid promise, with what amounts to two crops in one, the farmers began to call for help. This has been developed into a system. With a state labor bureau in correspondence with county officers, city clerks, farmers and township officers, the needs are tabulated. Even the fraternal orders have taken a hand, and have sent back to Indiana, Ohio and other states to fraternities to send men west. Hundreds of college boys have been enlisted and come to the harvest fields for the experience and to earn vacation money.

When a single county, as is the case with several in southwest Kansas, needs 3,000 to 4,000 men it is policy for the railroads to get the men there and save the crop. Thousands of dollars have been sent east to pay the transportation of workers, the agents of the western roads holding the funds contributed by farmers and wiring orders to furnish tickets. To pay this army means a large drain on the currency supply of the interior banks.

The 40,000 men in Kansas will draw over \$100,000 a day for labor alone, to say nothing of the expense in feeding them. Most of this money will be taken out of the state, for except what is spent in travelling the harvesters have no expense personally. Likewise it is all currency, for the farmer finds his checks of little value to strangers.

The class of men westward bound for the harvest includes workmen from the lumber camps, factory men seeking a bit of outdoor work with good wages, college boys and small farmers from adjoining states.

Met by Waiting Employers.

Farmers in automobiles, wagons and buggies wait for the men at the stations, and cook shacks are ready in the fields to serve meals.

The men are, for the most part, unfamiliar with harvest work, but they are given the routine hand labor, while experienced men handle the binders and headers. In addition to the imported labor, all available local help is busy, and the towns are for the time deserted of able-bodied laborers.

The gathering of 8,000,000 acres of wheat in Kansas, for instance, is not all done at one time. The work begins on the southern border, and three or four weeks elapse before the army of workers reaches the Nebraska line. The wheat ripens slowly, the lower latitudes first turning yellow. This means economy of time and effort, for the men who have first begun will go with the ripening of the wheat northward until they reach the northern limit, thus getting a month or more of steady work. The peculiarity of this year's wheat is that the straw is heavy, and binders will be used more freely than in most years.

Weight of a Gallon of Milk. "What is the standard weight for sweet milk?"

A quart of milk weighs 2.153 pounds and a gallon 8.612 pounds, or a quart 2.15 pounds and a gallon 8.6 pounds. It is understood that the temperature of the milk and the relative proportions of the butter fat and solids not butter fat cause the weight of milk to vary, but the weights stated above are those generally used.—Progressive Farmer.

Marks a Change in American Indian. Typifying in a striking degree the changed status of the American Indian of today, the first club ever formed of college students of Indian blood has effected a permanent organization in Oklahoma. In a general way it has as its purpose the betterment of the race and the preservation of Indian history and traditions. Its specific purpose is to interest the young folk in college education. The name of the club is "Oklasha Degotega" and means "tribes standing together."

BEAUTY OF THE HUDSON.

Its Picturesque Scenery Far Surpasses That of the Rhine.

The Hudson river is very remarkable in several respects. In the first place, for 150 miles of its length it is not a true river but a fiord. From Albany to the ocean its rock bottom, with the exception of a few islands, is below sea level. How far below, it is not accurately known. Opposite Storm King mountain engineers bored a thousand feet down into the dirt and sand that fill the gorge under the water and did not find rock bottom. The shore line at Albany is at practically the same elevation as the shore line at New York, and the tide rises at Albany two and eight-tenths feet. The upward and downward flowing of the tide, of which Hudson took advantage in his voyage, had long been noticed by the Indians, who spoke of the river with wonder as the stream that flowed both ways.

The river is unsurpassed for its great natural beauty. The distinguished German surgeon, Dr. Adolph Lorenz, in 1902 declared it more beautiful than the Rhine, which depends on the castles on its banks for its main charm. Primarily, the beauty of the Hudson is due to the extraordinary range of its geological history. From its source to the sea it is an epitome of creation. It rises in the Adirondack mountains, which tower to a great height. The famous Highlands of the Hudson, between which Hudson sailed 300 years ago, are of the same Archæan rocks and were once a group of islands. The Catskills are more modern and the Palisades still younger. The latter rising sheer 300 to 500 feet above the water's edge, were once a fiery molten mass and their columnar shape is due to the manner in which the mass cooled off.

These facts indicate what a storehouse for fascinating research the Hudson valley is for the person, young or old, who will study it with the mind as well as with the eye.—Edith Townsend Kaufmann in Leslie's.

SOLONS AND SALARIES.

Some European States Pay Their Law-makers Only a Mite.

Italy and Spain are the only European countries which offer no monetary reward to their members of parliament. The Portuguese legislators are not remunerated by the state, but they have a free pass for traveling on all railways in the country, and their constituencies are permitted to pay a sum equivalent to 15 shillings for each day's sitting.

Denmark is another country which believes that its political gentlemen are ready to work for almost nothing.

NOTICE

For the convenience of the shop men and all the people, my shop will be open in the evenings to 8 o'clock p. m., beginning Monday, June 1st, thus making it possible for the shop men and others, who wish to leave and call for shoes in the evenings.

Members of parliament there only receive 6 shillings per day, but they have the peculiar privilege of a free seat in the Royal theater in Copenhagen.

The Norwegian honorable member is thankful for a daily income of 12 shillings, though he must do his duty properly to get it. He loses a day's pay when he takes a day off. Members of the Swiss diet work under the same threat. If they are absent they lose salary which amounts in their case to 16 shillings per day.

Roumania pays her lawmakers a sovereign per day, and Bulgaria offers 16 shillings. In the latter country members living in the capital have a shilling deducted because they have no train fares to pay and only one home to keep up.

Hungary treats her statesmen just half as well as England does, allowing them £200 per annum. They have, however, a liberal allowance for house rent and can travel first class with second class tickets.—London Tit-Bits.

At Bremen, Ga., W. M. Golden, of the Equitable Life Assurance Society, says he found Foley Kidney Pills to be the best remedy for kidney and bladder troubles, also for rheumatism. He says, "Any person having kidney trouble, backache, or rheumatism should be very glad to find such a wonderful remedy." H. P. Dunn. —Adv. mwf
